## Objective

---

Motivated and detail-oriented Computer Science graduate specializing in Artificial Intelligence & Machine Learning. Proficient in Java, Python, and web development, with a strong foundation in software development and problem-solving. Eager to contribute to a dynamic tech team, apply practical skills to real-world challenges, and grow continuously in a fast-paced industry.

## Skills

---

- Programming Languages: Java, C, Python
- Core Concepts: Object-Oriented programming (OOPS))
- Web Technologies: HTML, CSS, Java Script
- Database: mySQL
- Tools: git&github

## Projects

---

- **Personal Portfolio Website**
  - Designed and developed a fully responsive personal website to showcase skills and projects.
  - Demonstrated understanding of front-end technologies and UI/UX principles.
- **Carrer path**

This project reflects a Software Developer career path by applying core web development concepts such as structured coding, responsive design, and logical implementation using front-end technologies.

## Education

---

- **Sree venkateshwara college of engineering, Tirupati** 2022-2026  
Btech-Cse(artificial intelligence and Machine learning)  
8.8
- **Sri Chaitanya college of engineering, Tirupati** 2020-2022  
Intermediate -mpc  
86.4
- **Red cherries , Tirupati** 2019-2020  
Secondary school (10th standard)  
10

## Internship

---

- Frontend Development Intern – CodeAlpha (Jul 2025 – Aug 2025)
  1. Learned HTML, CSS, JavaScript basics.
  2. Built simple responsive web pages.
- Competitive Programming Intern – byteXL (May 2025 – Jul 2025)
  1. Improved problem-solving and logic building.
  2. Solved 100+ logic problems.
  3. Gained coding experience in C/Java/Python.

## Certifications

---

- Java Programming - NPTEL
- Artificial Intelligence - Salesforce
